

Coronavirus Notice

June 24, 2020

Dear Valued Blue Beacon Truck Wash Customers:

We are so grateful for the work all truck drivers are doing in the middle of this Coronavirus pandemic to help keep essential supplies in the hands of medical professionals and on the shelves in our nation's stores. Our goal is to remain open and able to serve the trucking industry, and to continue our efforts to help protect our country's food supply chain. We would like to take this opportunity to let you know about the steps we are taking to protect our customers and employees in order to ensure that our locations remain safe for everyone.

- We are following all suggestions and guidelines from the Center for Disease Control (CDC) and the World Health Organization (WHO).
- We have always placed a priority on the cleanliness of our locations, and we have asked our general managers to double their cleaning and disinfecting routines.
- We are providing information to all employees on the facts of COVID-19, including tips to prevent the spread of germs.
- We are insisting that employees stay home if they have any symptoms of illness, or if they have been exposed to anyone suspected of having the Coronavirus.
- We have posted information on tips to prevent the spread of germs in all restrooms at our locations.
- To protect you and our employees, we have asked our employees to:
 - Do not shake hands
 - Keep at least six feet of distance when talking to people
 - Practice good personal hygiene, including washing hands frequently

In light of our insistence that our employees remain home if they have any illness symptoms, even if they are suspected to be allergies, our staffing will not be as good as it normally is. Because of our need to enhance our cleaning and disinfecting routines, our speed of service will also not be as good as it normally is. We apologize in advance for any inconvenience this may cause you.

Please don't hesitate to ask if you have any questions. We appreciate your business, and all that you are doing to serve the population of our country!

Sincerely,

Trace Walker
President
